WELCOME to our INFANT CARE CLASS
held every 4th Tuesday on the 1th floor in the Clinical
Assembly room (CAR)

Caring for a baby is, at the least, a demanding task. No parent is perfect, and infants don't arrive with instructions. First-time fathers and mothers are often apprehensive when it comes to nurturing a baby. Our classes introduce new parents on how to handle the needs of their baby comfortably. Of course parents who are not new are welcome for a review session!
